75908 SERIES SINGLE POLE BATTERY DISCONNECT SWITCHES

75908

75908 Back

Description

The 75908 battery disconnect switch is a 300A, 36V Single Pole, Single Throw (SPST) manual disconnect switch that can be used to disconnect the battery from the vehicle electrical system. Disconnecting the battery from the electrical system prevents potential thermal events and ensures system shut down during maintenance or emergency. Battery disconnect switches also prevent parasitic loads from draining the battery during inactivity.
